Reconciliation =
Making Things Right

Opening Thoughts...

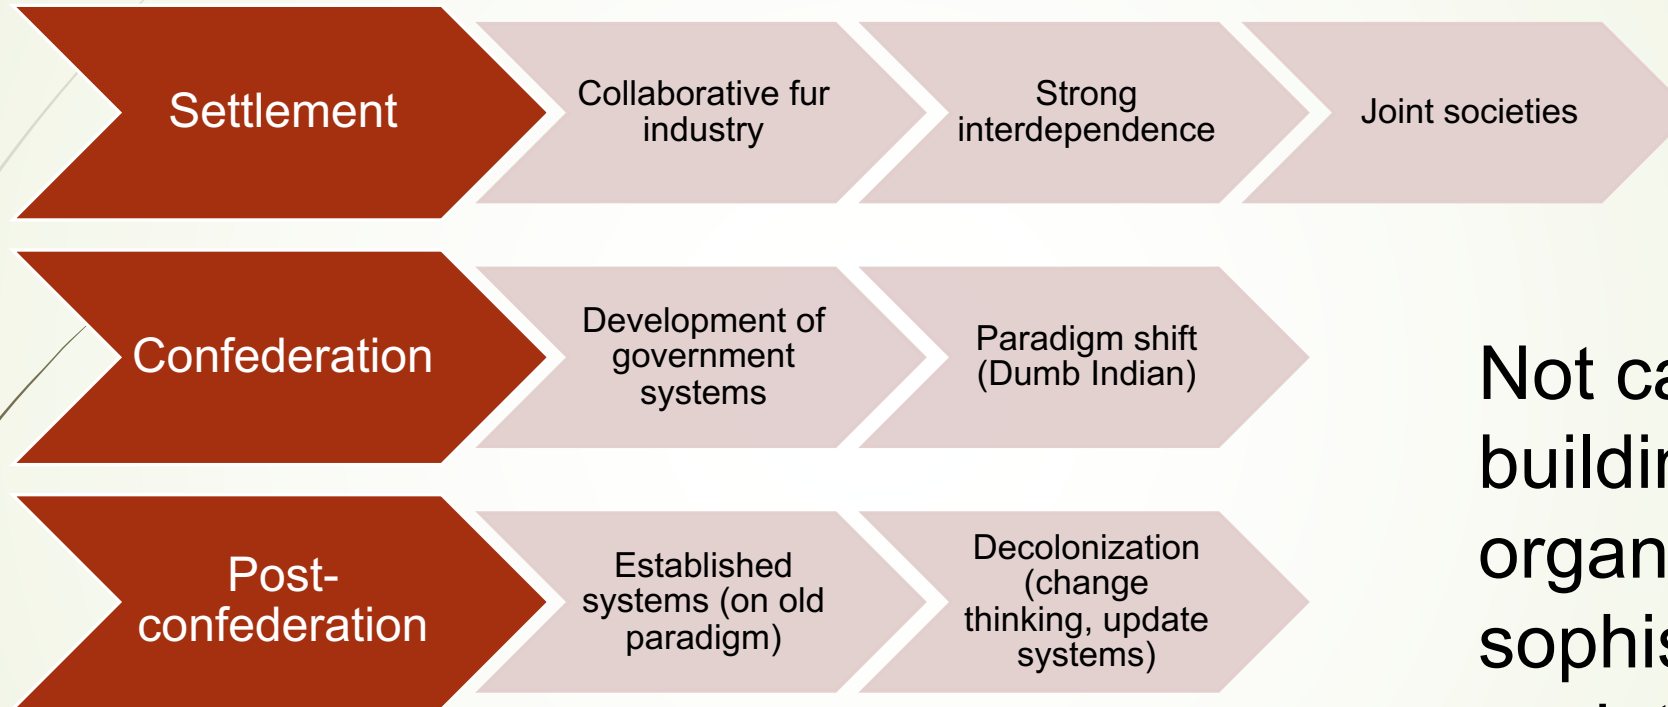

- This is more of a **HUMAN** journey than a **LEGAL - TECHNICAL** journey
- It is easy to:
 - Over-think
 - Make mistakes
 - Have push and shove
 - Be intolerant
 - Be emotional
 - Be human
- We have a lot more in common than we have differences
 - Land, family, life, fun...

The Environment

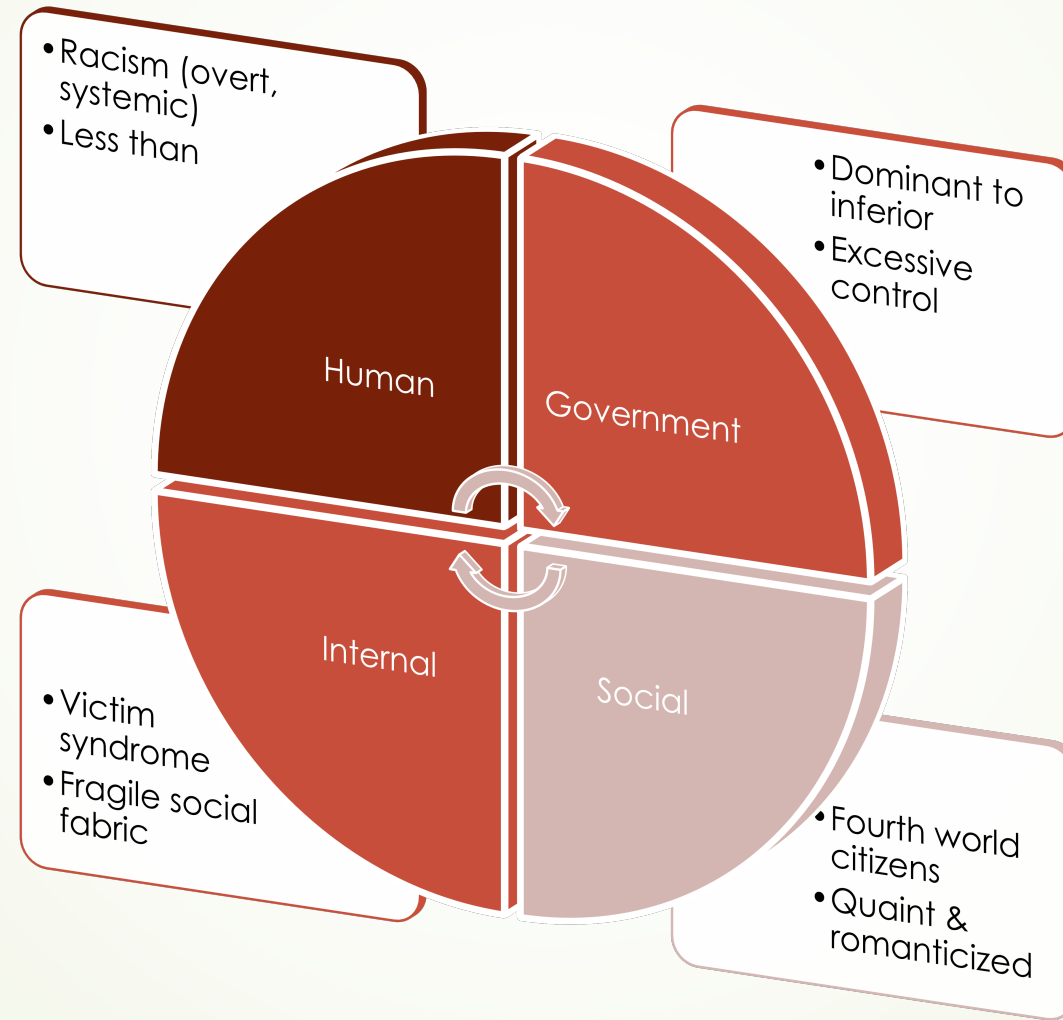

- This vision ("BC's vision - most literate, lead the way in healthy living and physical fitness, best system of support in Canada for persons with disabilities, special needs, children at risk and seniors, lead the world in sustainable environmental management, create more jobs per capita) can only be achieved if First Nations citizens attain these goals.
- States shall consult and cooperate in good faith with the indigenous peoples concerned through their own representative institutions in order to obtain their free, prior and informed consent before adopting and implementing legislative or administrative measures that may affect them.
- The Province wants to renew its relationship with Indigenous peoples in BC, and affirms its desire to achieve a government-to-government relationship based on respect, recognition and exercise of Aboriginal title and rights and to the reconciliation of Aboriginal and Crown titles and jurisdictions.
