

February 11, 2021

I would like to take this opportunity to express my sincere appreciation and gratitude to the BC Community Forest Association and the team for providing the Burns Lake Community Forest with the recent funding award. We are dedicated to increasing wildfire resilience in the BLCF area base, while also providing community protection and remaining an operational forest – all through both ecological and cultural lenses allowing us to achieve multiple objectives and a unified vision across this landscape. This recent funding will allow us to continue striving towards that vision and our collaborative goals of wildfire risk reduction and landscape resilience.

On behalf of my entire team here at BLCOMFOR, our Board of Directors, all of our partners and contractors – I thank you for believing in our work and for supporting us to put fire out on the land in a good way and to reduce wildfire risk through fuel treatment.

We are all in this together and we are very grateful to receive this financial support.

We look forward to our collaboration and partnership continuing long into the future.

Sincerely,

Frank
